Report Format

Time: when the event was observed in 12 hour format local time

6:35 PM

Location: where the event happened from a reference point (distance and direction, County name) or 3 decimal GPS point.

When giving direction use the 16 point compass format (north-northeast, west-southwest, etc.)

4.3 South West, West Bend, Washington County

42.583 (north) 88.443 (west) pronounced "four two point five eight three, eight eight point four four three"

Condition: the event observed including it's position, relative to your location

Rotating wall cloud to west north west

Source: the callsign of the observer, not the relaying station.

Example:

Reporting Station: KC9XYZ , TORNADO

Net Control: Go ahead KC9XYZ

Reporting Station: 6:35 PM, 4.3 south west, West Bend, Washington County, rotating wall cloud to west north west, KC9XYZ

OR 6:35 PM, four two point five eight three, eight eight point four four three, rotating wall cloud to west north west, KC9XYZ

Net Control: Thank you KC9XYZ, this is **CALLSIGN** net control.

Reportable Severe Weather Criteria

1. Tornado (Waterspout if event is known to be on a body of water)

Include general direction using 16 point compass format in addition to location

2. Funnel Cloud

Include general direction using 16 point compass format in addition to location

3. Rotating wall cloud

Confirm that it is rotating

Include general direction using 16 point compass format in addition to location

4. Severe Damage

Tree branches greater than 3" dia. Snapped, trees uprooted, major crop damage

Any structural damage to buildings (includes roof damage)

Downed or collapsed light poles, traffic lights, power lines

Cave-ins, mud slides, sink holes, etc.

5. Severe Winds

58 MPH OR HIGHER

Indicate if speed is measured or estimated, preferably measured

6. Severe Hail

1 INCH OR GREATER diameter, indicate if measured or estimated, preferably measured

7. Severe Flooding

Water over river banks or dams, water out of bank causing property damage

Roads, bridges, or railroads washed out or impassable

8. Minor Hail

¾ TO 7/8 INCH only, unless otherwise instructed by Sullivan Weather

Indicate if size is measured or estimated, preferably measured

9. Minor Damage

Any cosmetic damage to buildings, and vehicles

Tree branches less than 3" dia. snapped causing power line or cosmetic damage

10. Minor Flooding

Non-life-threatening / non-damaging water over curb

Water out of banks confined to low lands and bottom lands, not impacting buildings or roads

11. Visibility

Less than ½ mile, indicate if due to precipitation, fog, smoke or blowing dirt

12. Rainfall

Measured in amounts greater than the rate of **¼" per 15 minutes**, greater than 1 inch per hour

If possible indicate the starting time and the ending time of the measurement period

13. Minor Winds

40 TO 57 MPH only, unless otherwise instructed by Sullivan Weather

Indicate if speed is measured or estimated, preferable measured

The severe conditions 1 – 7 are to be reported from the field team to Sullivan Weather immediately through their relay station using established channels and protocols

The non-severe conditions 8 – 13 should be reported from the field team to Sullivan Weather using established digital modes and protocols unless directed otherwise
